NTSB

46 CFR 185.508

The master of a vessel shall require passengers to don lifejackets when possible hazardous conditions exist, including, but not limited to:

1. When transiting hazardous bars and inlets
2. 1. When transiting hazardous bars and inlets
3. In event of flooding, fire or other events that may possibly call for evacuation; and
4. When the vessel is being towed, except a non-self-propelled vessel under normal operation conditions.

(b) The master or crew shall assist each passenger in obtaining a lifejacket and donning it, as necessary.
